BEFORE YOU START

Learn a rule. Try it yourself.

This workbook contains six short lessons and 30 practice questions. It focuses on sentence patterns that beginners use often.

How to practise

Read the rule and examples. Answer all five questions in a unit before looking at the answer key. Write directly on a printed copy or use a notebook.

Mark and learn

Give yourself one point for each correct answer. For rewritten sentences, check the grammar and word order; do not lose a point only for a missing final full stop. A correct contraction is acceptable.

Your score is practice feedback, not a formal language-level assessment. Revisit a rule when you miss a question.

Keep a useful mistake

After checking a unit, choose one mistake. Write the correct sentence and a new example about your own life.

Answers and short explanations are on the last two pages.
